PROFILE

Aspiring Software Engineer and Full Stack Developer with a strong foundation in programming fundamentals and modern web technologies. Experienced in building secure, scalable, and data-driven web applications using the **MERN Stack (MongoDB, Express.js, React.js, Node.js)**. Passionate about solving real-world problems, writing clean code, and continuously improving technical skills while contributing effectively to agile software teams.

TECHNICAL SKILLS

Languages & Foundations: Java, C, JavaScript, SQL, Data Structures and Algorithms
Frameworks & Web: React.js, Node.js, Express.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Databases & Tools: MongoDB, MySQL, Git/GitHub, Postman, Vercel
Security & UI: JWT Authentication, Role-Based Access Control (RBAC), shadcn/ui, Framer Motion

PROJECTS

- Job Portal Application** | *MongoDB, Express.js, React.js, Node.js, Tailwind CSS* Mar 2026
- Engineered a robust Job Portal platform with dedicated modules for students and recruiters to manage job opportunities and applications.
 - Implemented secure authentication using **JWT** and enforced authorization through **Role-Based Access Control (RBAC)**.
 - Developed features including job posting, job searching, application tracking, and recruiter management workflows.
 - Designed a responsive user interface using **Tailwind CSS**, **shadcn/ui**, and **Framer Motion** components.
 - Integrated RESTful APIs with MongoDB for efficient frontend-backend communication.
 - Implemented asynchronous API calls for improved application performance and user experience.
 - Enhanced scalability using modular React components and reusable architecture.
- Skill Analytics Platform** | *React.js, Node.js, Express.js, MongoDB, Vercel* Feb 2026
- Developed a skill tracking and analytics platform with multi-role authentication for Students, Faculty, and Admin users.
 - Built interactive dashboards to visualize technical skill growth, category performance, and improvement areas.
 - Designed MongoDB schemas for managing users, skills, analytics, and notification data securely.
 - Created modular REST APIs following MVC architecture principles.
 - Developed a responsive application with 10+ pages and deployed using **Vercel**.
 - Implemented data visualization features to analyze learning progress and performance trends.
 - Improved maintainability through clean code structure and reusable components.

EDUCATION

Bannari Amman Institute of Technology <i>B.Tech in Computer Science (CGPA: 7.81)</i>	2023 – 2027 <i>Sathyamangalam, Tamil Nadu</i>
Little Flower Matric HSS <i>Higher Secondary Certificate (HSC) – Computer Science (Percentage: 86.1%)</i>	2022 – 2023 <i>Sathyamangalam, Tamil Nadu</i>

CERTIFICATIONS

- TCS Career Edge**
- HTML & CSS - LetsUpgrade**
- Python Basics - HackerRank**
- SQL Basics - HackerRank**
